

ASRIL RINALDI
Quality Assurance Engineer

Bekasi, Indonesia | Phone: **08974436879** | Email: **asril.rinaldi@gmail.com**

SUMMARY

Software Quality Assurance and Test Automation Engineer with experience in manual and automated testing across banking systems. Skilled in requirement analysis, test design, and execution of SIT, UAT, regression, and performance testing.

Experienced in automation using Java (Appium and Selenium) with a strong understanding of SDLC/STLC and Agile practices. Proven ability to collaborate with cross-functional teams to ensure high-quality and reliable system delivery.

EXPERIENCE

PT Sinarmas Multifinance – West Jakarta

Quality Assurance Engineer (August 2025 – Present)

- Designed and executed test cases based on user stories to ensure application quality
- Managed defect tracking and reporting using Jira, with familiarity in similar tools such as Redmine
- Perform web automation using Playwright and mobile automation using Appium
- Handled multiple testing cycles simultaneously while maintaining quality and meeting deadlines
- Execute SIT, UAT, and smoke testing

PT Bank Tabungan Negara (BTN) – Central Jakarta

Quality Assurance Analys (November 2024 – August 2025)

- Reviewing **FSD**, **TSD**, and **PCR/CR** documents before starting the testing phase.
- Creating **test cases** for both positive and negative testing.
- Participating in **SIT** and **UAT** testing phases, collaborating with stakeholders such as **PM**, **BP**, **SA**, **QA**, **Dev**, and others during each phase.
- Conducting system testing, including **compatibility testing**, **performance testing**, and **regression testing**.
- Managing testing using the **qTest Scientist** tool.

PT Bank CIMB Niaga (CIMB) – South Tangerang

Test Engineer (May 2024 – November 2024)

- Reviewed manual test scripts as the foundation for creating automation scripts.
- Developed automation scripts with a 1:1 ratio based on the corresponding manual scripts.
- Created automation scripts using **UFT One** with **Visual Basic** programming.
- Executed automation scripts using **Octane** and **Jenkins** tools.
- Managed assets and source code using the **Gogs** platform.
- Collaborated with the IT team to resolve issues found in defective products.

PT Bank Central Asia (BCA) – West Jakarta

Automation Tester (November 2021 – May 2024)

- Reviewed test scenarios and requirements provided by the Testing Analyst.
- Developed automated test case scripts based on application features or test scenarios.
- Wrote automation scripts using the **Java** programming language.
- Utilized **Appium** to automate testing for mobile applications.
- Reduced regression testing time by up to 40% through test automation implementation
- Consistently generated detailed reports from each automation test execution.
- Worked in Agile environments, actively participating in sprint planning, execution, and review processes
- Collaborated with the IT team to resolve issues found in defective products.

PT XL Axiata – South Jakarta

IoT Developer Intern (June 2019 – August 2019)

- Developed a concept to address environmental issues using IoT technology.
- Wrote code for the **ESP32 microcontroller** using **C++** and **C**, utilizing the **Arduino IDE** as the code compiler.
- Built an Android application to display sensor data using **Android Studio** with **Java** programming language.

EDUCATION

Institut Teknologi Sumatera (Aug 2016 - June 2021)

Bachelor of Informatics Engineering

SKILLS AND TOOLS

- **Programming Languages:** C, C++, Java, Javascript, MySQL, PHP, HTML, Visual Basic
- **Automate Tools:** Selenium, Appium, Postman, Arduino IDE, UFT One, Octane, Jenkins
- **Test Management Tools:** Testing Factory Dashboard (TFD), JIRA, qTest Scientist
- **Code Management Platforms:** GitHub, GitLab, Gogs

TRAINING AND CERTIFICATION

- **Badan Nasional Sertifikasi Profesi (BNSP)**
Junior Programming (2021)
- **DQLAB**
Fundamental SQL with Select Statement (2021)
- **HackerRank**
 - Java Basic (2023)
 - Problem Solving with Java (2024)
 - SQL Basic (2024)
